

The JWA water bags for load testing are a versatile and cost-effective solution for testing the weight capacity of various lifting equipment. This water bag has a weight capacity of up to 125 Tonne. It has removable heavy duty webbing, shackles, links, rubber snubbers and an emptying hose with pulley assembly. It is constructed with the in Europe highest available quality materials.

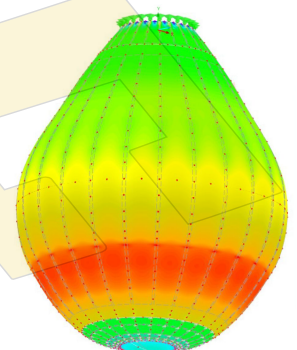

They come in a variety of sizes to accommodate different load capacities. We offer bags ranging from 250 kg to 125 Tonne in weight.

Description	Model	Part Number	Load Capacity
Water Load Test Bag 0.25T	0.25C	712837	250 KG
Water Load Test Bag 0.50T	0.5C	712838	500 KG
Water Load Test Bag 1T	1C	712513	1 TONNE
Water Load Test Bag 2T	2C	712511	2 TONNE
Water Load Test Bag 3T	3C	712722	3 TONNE
Water Load Test Bag 5T	5C	712512	5 TONNE
Water Load Test Bag 10T	10C	712510	10 TONNE
Water Load Test Bag 20T	20C	712490	20 TONNE
Water Load Test Bag 25T	25C	712686	25 TONNE
Water Load Test Bag 35T	35C	712285	35 TONNE
Water Load Test Bag 50T	50C	712518	50 TONNE
Water Load Test Bag 55T	55C	712495	55 TONNE

DESCRIPTION	MODEL	PART NUMBER	LOAD CAPACITY
Low Headroom Load Test Bag 2T	LH02C	712519	2 TONNE
Low Headroom Load Test Bag 3T	LH03C	712480	3 TONNE
Low Headroom Load Test Bag 5T	LH05C	712520	5 TONNE
Low Headroom Load Test Bag 12T	LH12C	712431	12 TONNE
Low Headroom Load Test Bag 12.5T	LH12500C	712514	12.5 TONNE
Low Headroom Load Test Bag 15T	LH15C	712719	15 TONNE

Key Features:

- Capacity 250 kg to 125 Tonne
- Safety factor 6:1
- Low headroom version available up to 15 Tonne
- Wear and tear resistant material
- Easy to use and transport
- Bespoke solutions on request
- JWA's bags are made from unique, highest quality PVC available
